

BINARY OR QUANTUM

A Choice Point for Humanity

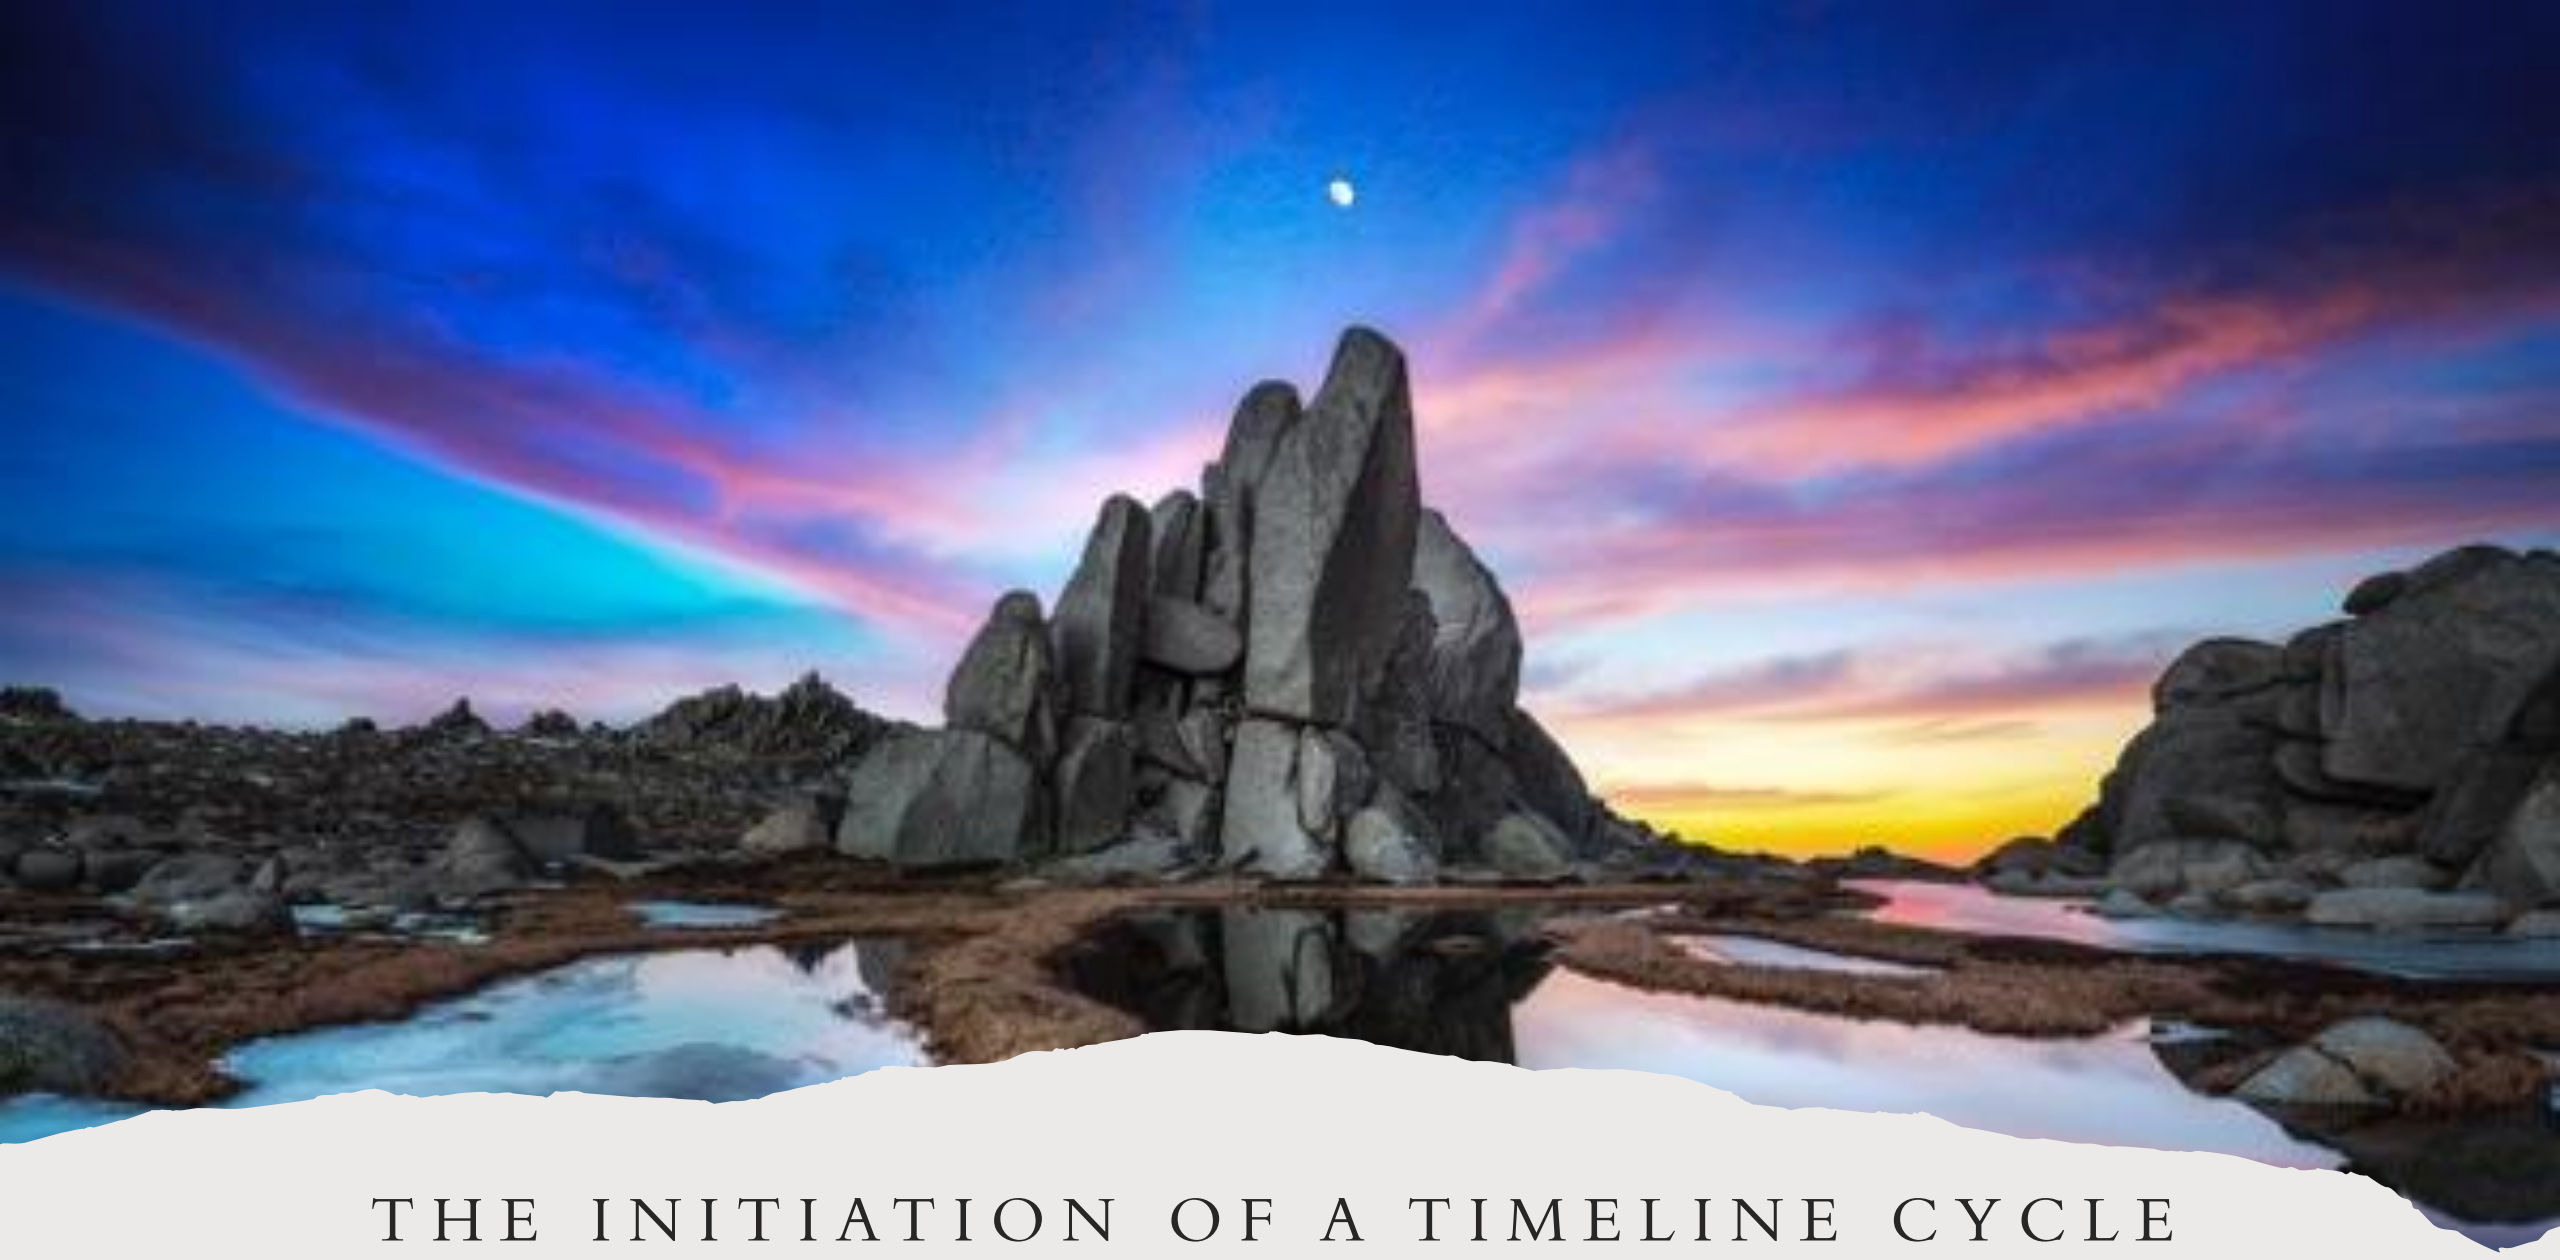

NATURAL & SACRED LAW

- A Binary condition is unnatural and is an archaic primitive state. In ages past primal elements ferociously smashed into each other creating chaotic fragmentation until achieving a conscious equilibrium and an equalized transference of energy. Anything unnatural requires a force proportional to its unnatural value to keep it from dissolving and dying.
- A Quantum force releases and consciously transfers its wisdom and energy into new evolutions and includes in this transference an empowered blueprint of living diversity. Encapsulated in this blueprint lives the fractal representation of liminal timelines. This is a Sacred Law / Divine Law.

[I N F - I I 48] / [T W M 64]

- Infinity II
- A great Oneness reigns in Cosmos as a powerful law. Only those who adhere to this law can verily take part in cosmic cooperation. The Oneness of substance in everything urges humanity to creativity. When the consciousness draws from the treasury of Space, the Cosmic Magnet [The Cosmic Heart, or the Conscious-ness of the Crown of the Cosmic Intelligence.] is under tension. The manifested treasury contains the expression of the energy imbued by the Oneness. Therefore each seed of the spirit must feel this Oneness. Each seed of the spirit belongs to the Cosmic Oneness in which all cosmic creativeness is comprised. Humanity de-prives itself in departing from this truth by setting up a law of separateness. Immutable is the law of the Oneness in infinite diversity!
- Only by this law can one build, because when attraction is creating, the power that lies in the action is Oneness. The creativity of Cosmos is boundless through this Oneness! [Inf-II 48]
- A Treatise on White Magic
- Much more could be said on this rule but enough has been here given for the average applicant to disciple-ship to consider and upon which to base action. Most of us are average, are we not? If we regard ourselves otherwise, we divorce ourselves from others and become guilty of the sin of separateness – the one re-al sin. [TWM 64]

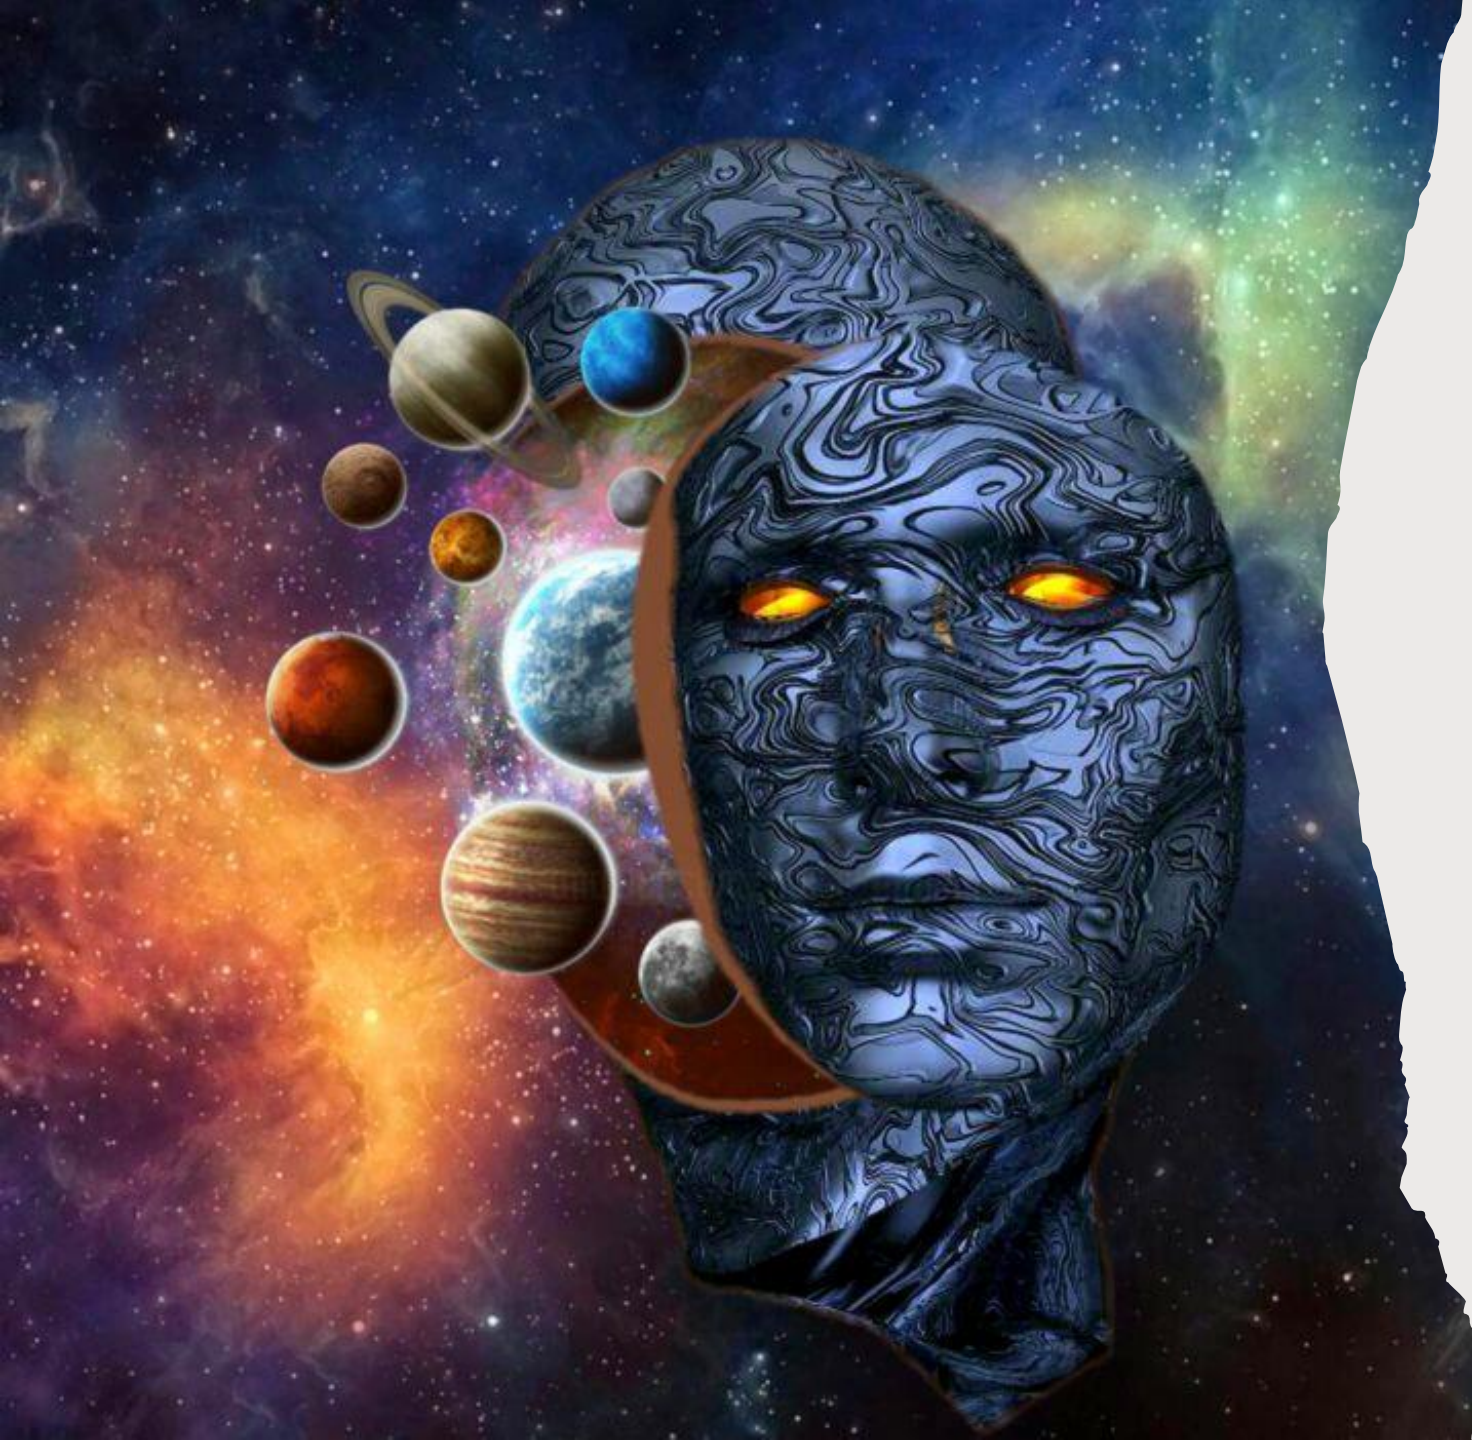

THE INITIATION OF A TIMELINE CYCLE
IS A CRITICAL POINT OF CHOICE
WE NEED TO BE VIGILANT AND CONSCIOUS OF HOW IT IS ENCODED

INITIATING A NEW AGE

- The optimal initiation of a New Age -- not constrained or overshadowed by its preceding energy. Instead, DIVINE it transfers its wisdom and light and releases of its own volition.
- The previous age held a strong presence of that which came before and that presence guided the energies accordingly. It was overshadowed and failed to fully transmute and release.
- Aries-Pisces ~ Pisces/Aries-Aquarius
- We are both catching up to and actualizing the previous age as it was intended while also attempting to enter this New Age anchored in the optimal light and not overshadowed by the preceding two.
- A Quantum approach is required to lay the foundation for this New Age that is purified in a manner that can establish a stable and malleable Lighted House. Wherein the essence of each previous Age can be distilled and transmuted into raw form energy to build with and not upon.

- Glamour: A World Problem
- Intuition is a comprehensive grip of the principle of universality, and when it is functioning there is, momentarily at least, a complete loss of the sense of separateness. At its highest point, it is known as that Universal Love which has no relation to sentiment or to the affectional reaction but is, predominantly, in the nature of an identification with all beings. Then is true compassion known; then does criticism become impossible; then, only, is the divine germ seen as latent in all forms.
- Intuition is light itself, and when it is functioning, the world is seen as light and the light bodies of all forms become gradually apparent. This brings with it the ability to contact the light centre in all forms, and thus again an essential relationship is established and the sense of superiority and separateness recedes into the background.

NEW DISPENSATION OF THE TEACHINGS

- How can we know them in a binary state of mind.
- The binary state of mind can be easily deluded, glamoured, manipulated and led by false messiahs.
- Quantum states of mind are intuitive inclusive and are actively critical and centered. Allowing for lucid forms of discrimination when being presented with information.

MENTAL COLONIZATION

- Same Binary strategies used in physical colonization (Division – Force – Financial warfare – Psychological manipulation – Dark magicks – Illusion, Predatory algorithms)
- During the mass colonization and human expansion upon the Earth we did not maintain our Sacred principles. In fact, we eradicated those who were holding these wisdoms for us so we could integrate them into our designs.
- We are asked again to listen to the inner voice of wisdom as we expand into new frontiers. Frontiers that promise to be ever more dangerous and rewarding upon the Mental Plane.
- This wisdom upholds free Will and Sovereignty for the I and the WE. To avoid yet another suboptimal evolution in which a potential loss of another thousand years or more with regards to the Plan for Humanity

Solutions

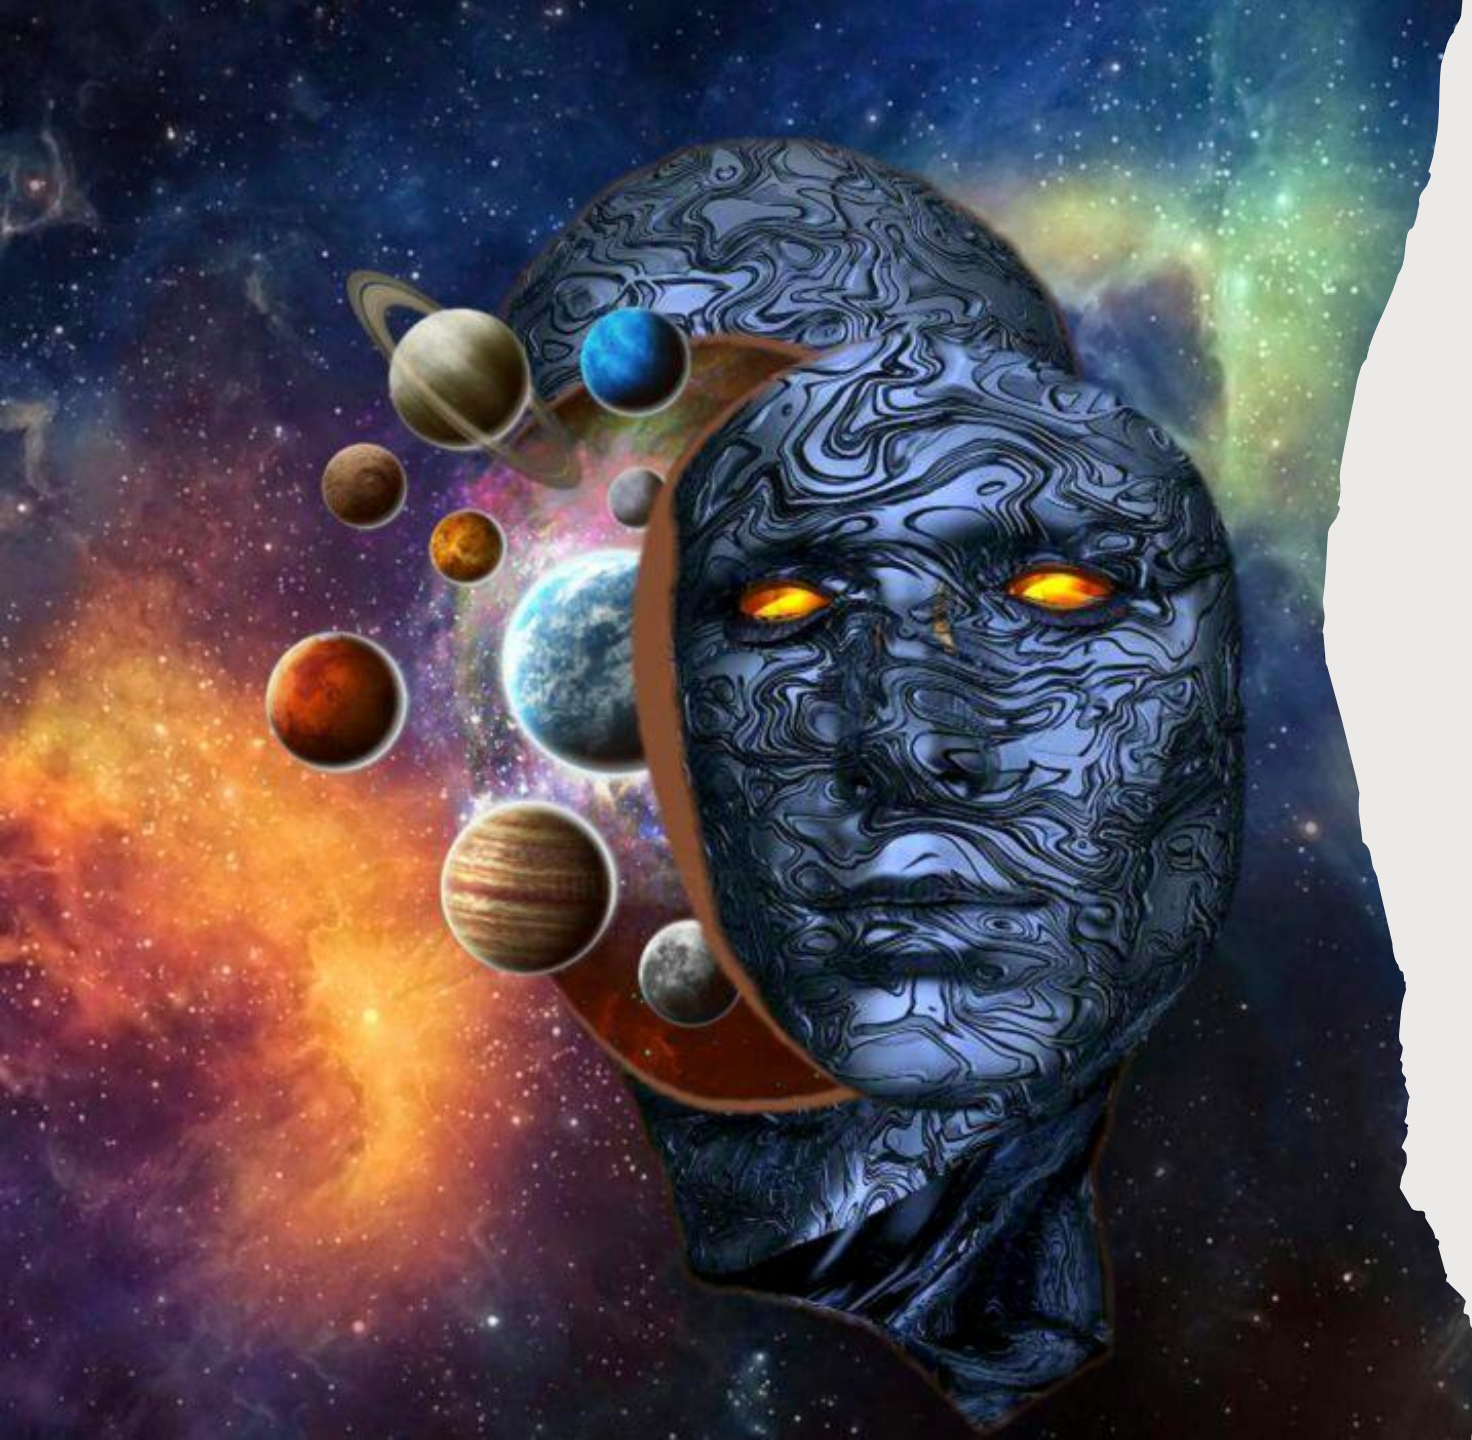

- Support free expression and speech
- Know the algorithms – feed them consciously
- Avoid being drawn into divisive conflicts. Apprise yourself of both polarities.
- Encourage a return to traditional familial structures (support, pacing & love)
- Extricate yourself from Digital echo chambers. If you only hear what you like you will become extreme and polarized.
- Use intuition and pattern recognition skills. Merit & evidence above emotional speech.
- Plug into positive media (movies, TV, news etc.)
- Set group protocols to be aware of possible infiltration
- Transcend Fear (if decision is based in fear, it opposes the Divine)
- Disable notifications – establish a healthy on/off presence
- Be aware of amplified emotion or overstimulated chemical release. If you yearn look deeper.
- Seek out alternative views. This can both cultivate a balanced Algorithm and give you context and deeper understanding.

STRATEGIES USED BY BLACK LODGE BINARY FORCES (MIND CAPTURE)

- Remove alternative voices – censorship (now AI driven)
- When it is free you are the product (extraction of behavior patterns and actions as raw materials – training AI)
- The broader dehumanization of Man, Woman and Child – eroding and fracturing solidarity within the collective
- Lack of parenting or guidance (raised by a machine and screens)
- Corraling people into digital cells or echo chambers (no voice but your own – faceBox – AI monitoring)
- Influencing the viral spread of memes and information (controlling the narrative) synth avatars
- Subjecting people to toxic visual and audible contaminants online (obstructing direct Soul contact)
- Erosion / infiltration of groups in the real world that foster soul contact (contaminating the root)
- Introduction and amplification of BETA frequencies (a steady diet of fear porn manifesting collective insanity)
- Always on distractions (alerts, notifications, messages – fragmenting focus and conscious awareness)
- Addiction formula (clicking to feel active – action without affect or effect – the silo of the self)
- One narrative on multiple networks that ultimately share the same narrative --not informing yourself but programming yourself.

- Solar or Lunar (dysfunctional Moon chainers – the Neo Atlantean dilemma)
- Formulaic solutions absent interaction or discussion (the illusion of the superior expert class)
- AI driven monitoring systems (real time analysis and manipulation of behavior and connections between people)
- Highly advanced predictive algorithms (big data extracted from users can predict collective outcomes)
- Omnipresent Surveillance systems (facial recognition, tracking – online and offline, financial / social monitoring)
- AI censorship and speech monitoring (automatic history expungement and alteration)
- Algorithmic influence and narrative control (invisible to user)
- AI knows only what it knows. Not what it will or can know (need to maintain influence – a hyper mental failing)
- Binary versus Quantum (1s or 0s instead of 1s and 0s)
current computing is binary representation of archaic dualistic thinking and can only manifest an either/or solution rather than a Quantum either/or/and solution (a shift to new computing & tech when we are Quantum)
- AI at present leads to binary non-holistic solutions mostly managed by authoritarians
- Replacement of the Divine or a religious foundation wrapping it in a hyper mentalist state. Disembodied heads... (Secular priests)
- Dark Alchemy – FinTech (spiritual alchemy versus the false alchemy of illusion and theft – digitized and AI driven – gold to lead - convince them lead is gold)

AI GOVERNANCE TURNKEY DICTATORSHIPS

BINARY & QUANTUM LEADERSHIP

- Binary leaders are those who aspire to gain the levers of control and have the propensity to be tyrants and dictators. Instead of empowering the people to guide themselves from their own soul. They believe they are superior and that the many should be controlled through physical or mental force. Often these archetypes suffer from a terrible fear of freedom within themselves. And in order to suppress this internal fear they impose their will in the outer world
- Quantum leaders empower and strengthen humanity so they can light their own inner fires and direct their own energies autonomously and from a place of enlightened free will. They seek out voices which are often unheard and listen to and integrate these voices into the whole. Quantum leaders know the process of getting to a destination is as important if not more so than reaching the final goal. Policy and merit above personality. They can shift between the state of being a guiding light and a common ally within the paradigm of the group and the self.

GROUP DYNAMICS OF THE NEW AGE

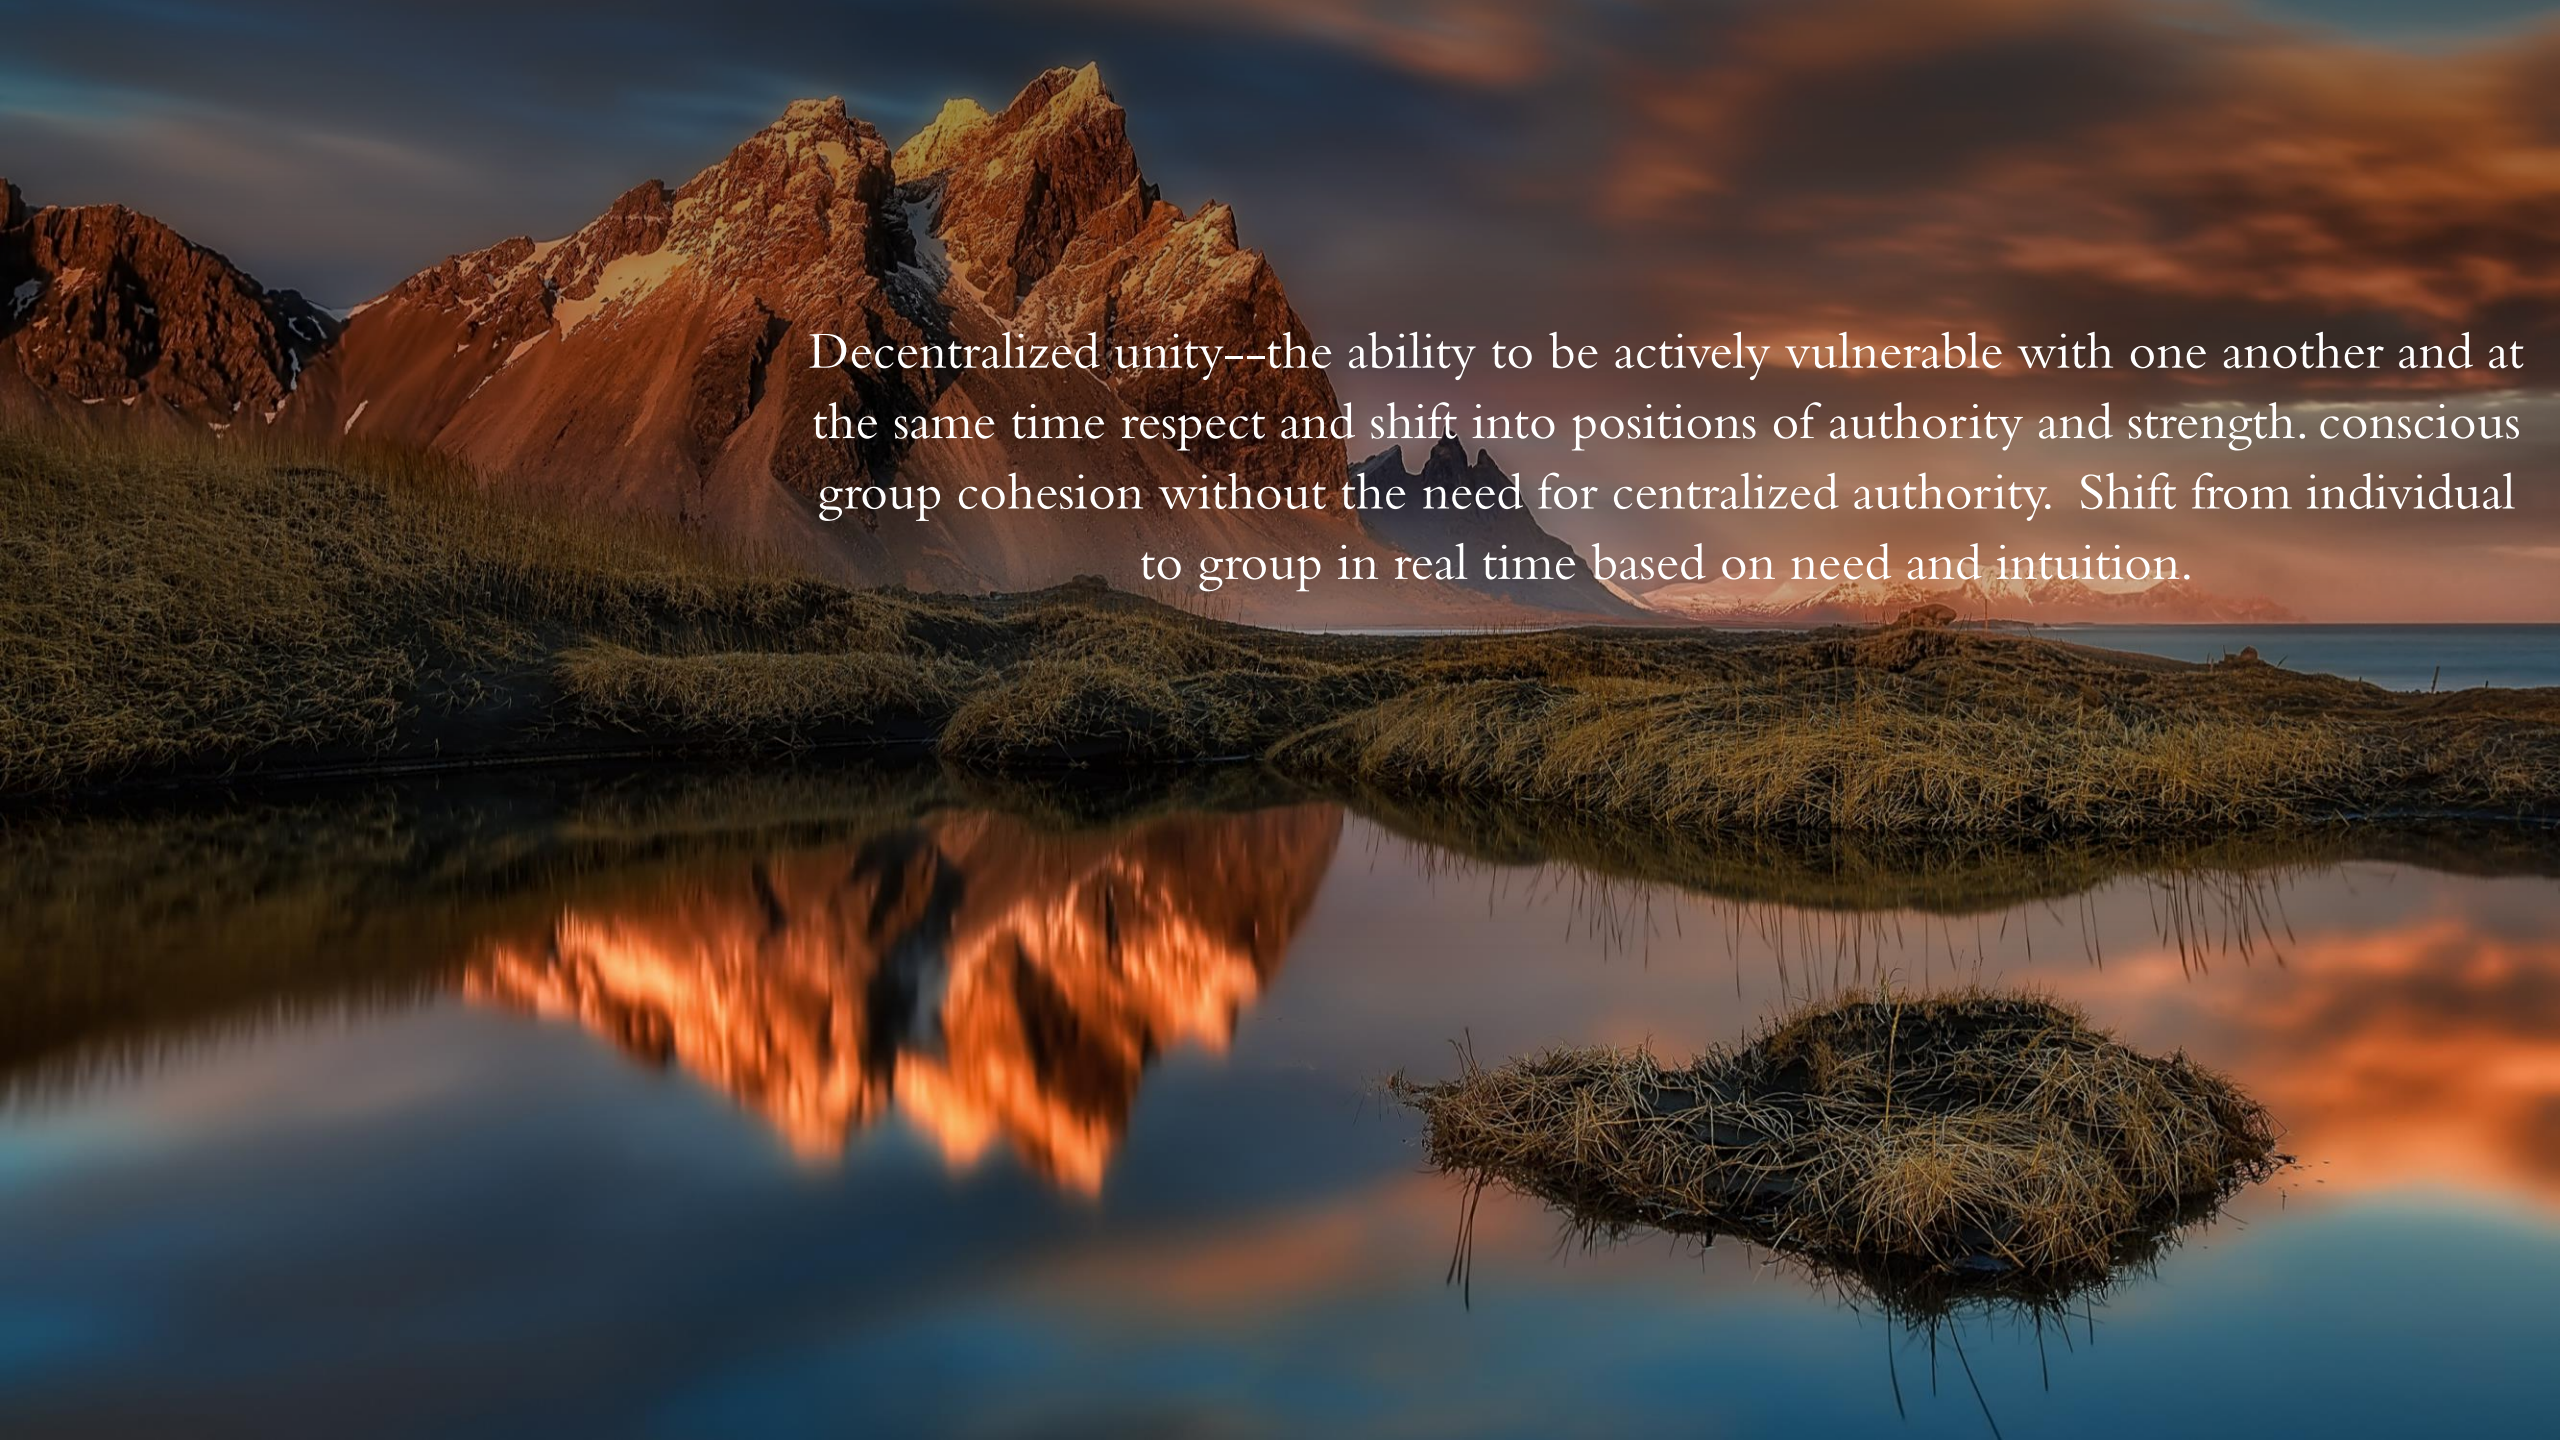

- Binary group dynamics are outdated and inefficient but most of all create foundational incentive to the unenlightened. Leaders who can not be questioned. The superiority of long-standing members above those who come with innovative and creative additions. Binary groups lack the adaptability to solve problems in real time and instead rely on secretive and internal functionaries to mete out punishment and reward within.
- A Quantum group can be systematically aware of the greater whole while innately elevating its members into trusted positions of authority. There is no need with this type of group an absolute arbiter. New members are welcomed, and their ingenuity and creativity are rewarded. Quantum groups can engage in real time communal problem solving. These groups can shift to a modality of conflict resolution and then back to the practical works of the group.

CONCRETIZED RELATIONS

- Binary us and them -- the need to other in order to create a reference point for the self. Essentially the personality requires an anchor in opposition to situate themselves in fixed space.
- Identifying with a belief rather than the pursuit of knowing and truth.
- Quantum ONE SOUL – does not need to objectify another to establish a feeling of grounding. This can be very uncomfortable and terrifying to those who have and continue to adhere to static thoughtforms.
- Be comfortable in the void and teach others to be comfortable in the void. The process and path of support for others within their process and upon the one path.

Decentralized unity--the ability to be actively vulnerable with one another and at the same time respect and shift into positions of authority and strength. conscious group cohesion without the need for centralized authority. Shift from individual to group in real time based on need and intuition.

FIRST TEST (RED & BLUE)

BINARY ~ to choose one side or the other

QUANTUM ~ to synthesize the 2

Red & Blue are 6th Ray Colors – when blended they are Purple (The Aquarian Age)

6 into 7

Instead of fragmenting within we need exemplify and hold space to bridge the Ages & Cycles

Practical Idealism is the new synthetic path

Conservative practicality creates the foundations as Divine Idealism guides the flow

BINARY creates othering and division a Dark Lodge tactic

QUANTUM seeks understanding and LOVE WISDOM a DIVINE PLAN strategem

- The 6th Ray must consciously release its hold for the new to be manifest. The 6th cannot be placed as a shroud upon the 7th wherein the 7th is but a mere exalted facsimile and the 6th is continued in practical form, in energetic force and in actionable thought.

If naught, the necessary great death that will bring Divine equilibrium will be represented proportionally to the resistance against this needed manifestation.

All that is in opposition to Sacred Law / Natural Law must be excised and transmuted. These dark forces which were meant to be laid to rest in ages past can only be upheld when a proportional unnatural and non sacred energy is used to empower them.

A TRANSHUMANIST FUTURE- TEST 2

BINARY (SINGULAR PURPOSE & FOCUS)

Loss of bodily autonomy

Centralized control of health (unelected expert class)

Lack of open debate / discussion on experimental procedures / therapies

QUANTUM (HOLISTIC VIEW & FOCUS)

Bodily autonomy is sacrosanct

Decentralized control of health (elected officials and informed public)

Extensive open debate / discussion on experimental procedures / therapies

WAR MUST NOT PRECIPITATE ON THE PHYSICAL PLANE- TEST 3

- Inner war and outer war. Inner war realizing one's own shadow. Outer war externalizing one's own shadow.
- Knowing thyself well enough to recognize personal triggers immediately and shift dynamically.
- Simultaneous holding both Cause and Effect within one's consciousness is a Quantum modality and allows ONE to observe the outcome and the initiating point in close to the same linear time frame.
- A Binary observation can only see cause or effect and can only factor for past, future or present as separate entities not as an interwoven continuum.
- The ability to see patterns in real time and adapt. QUANTUM
- Solving problems within the cause-and-effect spectrum.
- BINARY perception sees death and life in opposition and often clings to life with such adamant force it fundamentally invokes death at its inception.

BINARY approaches lead to
crucifixion, witch burning,
crusades, violence, racism, sexism,
separation, etc.

QUANTUM approaches lead to
unification, resolution, synthesis,
deeper understanding, deeper
presence, holistic viewpoints... etc.

[E O H 423 - 424]

- The Externalization of the Hierarchy
- I have stated also that we are reaching a climaxing period in human history; in this period the Lords of Karma are unusually active; the Law of Cause and Effect is bringing the results of past activities, the sub-jective thinking and the secret impulses to the surface, and exacting penalty and the planned cleaning of the slate of human history. When He Whom all disciples serve was on Earth two thousand years ago, He said that secret things would be made plain; by this emergence of the good and of the bad into prominence, men will arrive at knowledge, at understanding, and will be forced to take those steps which will be needed to [Page 424] build a new and better world, based on the Law of Love and not on the Law of Separate-ness and hate. This is what is happening today.

- A Treatise on White Magic
- Much more could be said on this rule but enough has been here given for the average applicant to discipleship to consider and upon which to base action. Most of us are average, are we not? If we regard ourselves otherwise, we divorce ourselves from others and become guilty of the sin of separateness – the one re-al sin. [TWM 64]
- But the reaction of men themselves to this teaching is an adequate answer. The sense of immortality, the surety of an eternal future, the innate belief in God, the revelation of the light, the achieving of a wisdom which helps and aids is not the prerogative of the Senecas, of the St. Pauls, of the Akbars of the race. It is found (and sometimes in its purest form) in the humblest peasant. Words of wise counsel fall from the lips of the illiterate, and a knowledge of God and a belief in the soul's immortality are discovered to be latent in the hearts of the most unlikely and oft of the most sinful. But when the highly evolved and the most intelligent of the race discover in themselves the divine Flame, and awaken the power of the supreme Controller, seated at the heart of their being, they are very apt to place themselves in a higher category than other people, and to classify those who do not have their mental grasp of the differentiations of the evolutionary development as differing so widely from them as not to deserve the name of Sons of God. They regard all not working in mental energy as lacking souls [Page 357] and hence as lacking eternal persistence as individuals. This is only a glamour of the mind, is part of the great heresy of separateness, and indicates faintly the coming period wherein the mind will be as dominant and as misleading as is the sentient body at this time.
- Let us therefore study the types of mental energy with which the individual has to work and see how this great heresy of separateness and the “fallacy of repudiation”, as it is sometimes called, can be offset. [TWM 356-357]

- The Externalization of the Hierarchy
- The Forces of Darkness [Or of Materialism...] are powerful energies, working to preserve that which is ancient and material; hence they are pre-eminently the forces of crystallisation, of form preservation, of the attractiveness of matter, and of the lure of that which is existent in the form life of the three worlds. They consequently block deliberately the inflow of that which is new and life-giving; they work to prevent the understanding of that which is of the New [coming Aquarian] Age; they endeavour to preserve that which is familiar and old, to counteract the effects of the oncoming culture and civilization [of the Sixth Sub-Race of the Fifth Root-Race.], to bring blindness to the peoples and to feed steadily the existing fires of hate, of separateness, of criticism and of cruelty. These forces, as far as the intelligent peoples of the world are concerned, work insidiously and cloak their effort in fair words, leading even disciples to express hatred of persons and ideologies, fostering the hidden seeds of hatred found in many human beings [Note the method-ologies now being used in the current world conditions]. They fan to fury the fear and hate of the world in an effort to preserve that which is old and make the unknown appear undesirable, and they hold back the forces of evolution and of progress for their own ends. These [Page 76] ends are as inscrutable to you as are the plans of the Ruler of Shamballa.

- Discipleship in the New Age, Vol. I
- STAGE FOUR [In establishing a needed synthesis and personality-soul integrataion.]. Having finished the special group work under Stage III [Which is a careful consideration of group purpose and technique.], the members of the group will then endeavour to link up with the other groups in the same manner in which they linked up with the members of their own group. In this case, however, disciples will not concern themselves with the personnel of any of the groups, including their own, but only – as a group – link their group with the other groups. Thus the concepts of illusion and of separateness, and the realisation of fusion, will assume correct proportions in your minds. [DINA-I 62]

[D I N A - I : 6 4 - 6 5]

- This speaks to the imposition of the personality WILL, and motives:

Another question could well be: What is the difference between this work which I am suggesting to you and the work of the Lodge of the Lords of Form? None whatsoever, except in motive and the point from which you must endeavour to work. The Lords of Form work entirely on and from the lower levels of the mental plane and with the energy of knowledge. The love aspect of the soul itself is inactive and, therefore, from the angle and vision of the Great White Lodge, motives are wrong and the objectives are selfish ones. This is true both of individuals and groups. Forget not that these Lords of Form are souls of great age and unique blindness. But that later, in some far distant cycle, and when karma has worked upon them and the Great Law has exacted full payment for all wrong done, that they too will begin to develop the love aspect and to transmute their motives. You too must work from mental levels but knowledge and love must be called into play together, producing only those results which are harmoniously and intelligently in line with the Plan. Disciples are not permitted to call into play and functioning activity the Will aspect of the soul, unless they are initiates of the third degree. Prior to that, they seldom realise the distinction between the imposition of the will and the directed impression of ideas. There is too much desire (which is embryonic will) in their equipment for them to be trusted as yet with this higher aspect of mental activity. I would ask you to get clearly in your minds in connection [Page 65] with any telepathic work which these groups (working under me) should do, that it is the impression of ideas and not imposed direction which is the group ideal – a very different thing, my brother.

- Letters on Occult Meditation
- A Master of the Wisdom is He Who can consciously function as part of the Heavenly Man to Whose Body He may belong. He understands the laws governing groups and group souls. He governs a group soul con-sciously Himself (a group on the path of return and formed of the lives of many sons of men) and He knows His place in the body systemic. He realises the centre in the Body of the Heavenly Man [A particular energetic center within a Planetary Logos.] by means of which He and His group are kept in sympathetic vibra-tion, and conducts His relationship with other groups in the same Body under certain definite laws. The value of meditation as a preparation for this activity will be realised by all thoughtful students, for medita-tion is the one means whereby the sense of separateness is transcended, and unity with one's kind oc-cultly comprehended.

- The Secret Doctrine, Vol. I
- Hence the allegory. The Lipika [The celestial recorders, the ‘Scribes’, those who record every word and deed, said or done by man while on this earth. As Occultism teaches, they are the agents of KARMA – the retributive Law.] separate the world (or plane) of pure spirit from that of Matter. Those who “descend and ascend” – the incarnating Monads, and men striving towards purification and “ascending,” but still not having quite reached the goal – may cross the “circle of the Pass-Not,” only on the day “Be-With-Us”; that day when man, freeing him-self from the trammels of ignorance, and recog- [page 131] nising fully the non-separateness of the Ego within his personality – erroneously regarded as his own – from the Universal Ego (Anima Supra-Mundi), merges thereby into the One Essence to become not only one “with us” (the manifested universal lives which are “one” life), but that very life itself.
